Anderson, T. K., & Felsenfeld, S. A thematic analysis of late recovery from stuttering. 12(2), 243–253.

Barber, W. D. *See* Clark et al., 12(1), 40–50.

Beck, A. R., & Fritz-Verticchio, H. The influence of information and role-playing experiences on children's attitudes toward peers who use AAC. 12(1), 51–60.

Beitchman, J. H. *See* Tingley et al., 12(3), 359–368.

Birkmire-Peters, D. P. *See* Mashima et al., 12(4), 432–439.

Borton, T. *See* Wolfe et al., 12(2), 221–228.

Bray, M. A., Kehle, T. J., Lawless, K. A., & Theodore, L. A. The relationship of self-efficacy and depression to stuttering. 12(4), 425–431.

Brinton, B., & Fujiki, M. Blending quantitative and qualitative methods in language research and intervention. 12(2), 165–171.

Burgess, L. P. A. *See* Mashima et al., 12(4), 432–439.

Cahill, M. A. *See* Hustad & Cahill, 12(2), 198–208.

Capellini, C. *See* Justice et al., 12(3), 320–332.

Carney, E. *See* Kohnert et al., 12(3), 259–272.

Carson, C. P., Klee, T., Carson, D. K., & Hime, L. K. Phonological profiles of 2-year-olds with delayed language development: Predicting clinical outcomes at age 3. 12(1), 28–39.

Carson, D. K. *See* Carson et al., 12(1), 28–39.

Channell, R. W. Automated developmental sentence scoring using computerized profiling software. 12(3), 369–375.

Chin, S. B., Tsai, P. L., & Gao, S. Connected speech intelligibility of children with cochlear implants and children with normal hearing. 12(4), 440–451.

Chow, S.-M. *See* Justice et al., 12(3), 320–332.

Clark, H. M. Neuromuscular treatments for speech and swallowing: A tutorial. 12(4), 400–415.

Clark, H. M., Henson, P. A., Barber, W. D., Stierwalt, J. A. G., & Sherrill, M. Relationships among subjective and objective measures of tongue strength and oral phase swallowing impairments. 12(1), 40–50.

Colton, S. *See* Justice et al., 12(3), 320–332.

Condouris, K., Meyer, E., & Tager-Flusberg, H. The relationship between standardized measures of language and measures of spontaneous speech in children with autism. 12(3), 349–358.

Countryman, S. *See* Sapir et al., 12(4), 387–399.

Crowe, L. K. Comparison of two reading feedback strategies in improving the oral and written language performance of children with language-learning disabilities. 12(1), 16–27.

Culatta, B., Kovarsky, D., Theadore, G., Franklin, A., & Timler, G. Quantitative and qualitative documentation of early literacy instruction. 12(2), 172–188.

Damico, J. S. *See* Simmons-Mackie & Damico, 12(2), 144–154.

Damico, J. S., & Simmons-Mackie, N. N. Qualitative research and speech-language pathology: A tutorial for the clinical realm. 12(2), 131–143.

Dixon, J. *See* Marshall et al., 12(3), 333–348.

Eadie, T. L. The ICF: A proposed framework for comprehensive rehabilitation of individuals who use alaryngeal speech. 12(2), 189–197.

Erickson, M. L. Effects of voicing and syntactic complexity on sign expression in adductor spasmodic dysphonia. 12(4), 416–424.

Felsenfeld, S. *See* Anderson & Felsenfeld, 12(2), 243–253.

Fey, M. E., Long, S. H., & Finestack, L. H. Ten principles of grammar facilitation for children with specific language impairments. 12(1), 3–15.

Finestack, L. H. *See* Fey et al., 12(1), 3–15.

Flanigan, K. *See* Justice et al., 12(3), 320–332.

Forrest, K. Diagnostic criteria of developmental apraxia of speech used by clinical speech-language pathologists. 12(3), 376–380.

Fox, C. *See* Sapir et al., 12(4), 387–399.

Franklin, A. *See* Culatta et al., 12(2), 172–188.

Franklin, T. C. *See* Tetnowski & Franklin, 12(2), 155–164.

Fritz-Verticchio, H. *See* Beck & Fritz-Verticchio, 12(1), 51–60.

Fujiki, M. *See* Brinton & Fujiki, 12(2), 165–171.

Gao, S. *See* Chin et al., 12(4), 440–451.

Gazella, J., & Stockman, I. J. Children's story retelling under different modality and task conditions: Implications for standardizing language sampling procedures. 12(1), 61–72.

Girolametto, L., Weitzman, E., & Greenberg, J. Training day care staff to facilitate children's language. 12(3), 299–311.

Glaze, L. *See* Kohnert et al., 12(3), 259–272.

Grawburg, M. *See* Rvachew et al., 12(4), 463–471.

Greenberg, J. *See* Girolametto et al., 12(3), 299–311.

Harris, J. L. *See* Qualls & Harris, 12(1), 92–102.

Henne, L. J. *See* Kuehn & Henne, 12(1), 103–109.

Henson, P. A. *See* Clark et al., 12(1), 40–50.

Heyding, J. *See* Rvachew et al., 12(4), 463–471.

Hime, L. K. *See* Carson et al., 12(1), 28–39.

Hinds, S. L. *See* Sapir et al., 12(4), 387–399.

Hochstein, D. D., McDaniel, M. A., Nettleton, S., & Neufeld, K. H. The fruitfulness of a nomothetic approach to investigating AAC: Comparing two speech encoding schemes across cerebral palsied and nondisabled children. 12(1), 110–120.

Holtel, M. R. *See* Mashima et al., 12(4), 432–439.

Huer, M. B., & Saenz, T. I. Challenges and strategies for conducting survey and focus group research with culturally diverse groups. 12(2), 209–220.

Hustad, K. C., & Cahill, M. A. Effects of presentation mode and repeated familiarization on intelligibility of dysarthric speech. 12(2), 198–208.

Iden, K. K. *See* Marshall et al., 12(3), 333–348.

Johnson, C. J. *See* Tingley et al., 12(3), 359–368.

Justice, L. M., Chow, S.-M., Capellini, C., Flanigan, K., & Colton, S. Emergent literacy intervention for vulnerable preschoolers: Relative effects of two approaches. 12(3), 320–332.

Kan, P. F. *See* Kohnert et al., 12(3), 259–272.

Karow, C. M. *See* Marshall et al., 12(3), 333–348.

Kehle, T. J. *See* Bray et al., 12(4), 425–431.

Kennedy, M. R. T. *See* Kohnert et al., 12(3), 259–272.
Klee, T. *See* Carson et al., 12(1), 28–39.

Subject Index

Hearing

Nature of Hearing and its Disorders

Hearing Loss and Deafness

Connected speech intelligibility of children with cochlear implants and children with normal hearing. Chin, S. B., Tsai, P. L., & Gao, S. 12(4), 440–451. 21–35.

Assessment of Hearing

Acoustical Instruments, Measurements, and Standards

Comments on the special forum on phonology. Podwall, A., & Podwall, M. 12(1), 121–122.

Intervention

Habilitation, Rehabilitation, and Education

Connected speech intelligibility of children with cochlear implants and children with normal hearing. Chin, S. B., Tsai, P. L., & Gao, S. 12(4), 440–451.

Hearing Aids and Other Prostheses

Connected speech intelligibility of children with cochlear implants and children with normal hearing. Chin, S. B., Tsai, P. L., & Gao, S. 12(4), 440–451.

Language

Nature of Normal Language

Language Development

Connected speech intelligibility of children with cochlear implants and children with normal hearing. Chin, S. B., Tsai, P. L., & Gao, S. 12(4), 440–451.
Contributions of qualitative research to the knowledge base of normal communication. Simmons-Mackie, N. N., & Damico, J. S. 12(2), 144–154.
Language functioning of residents in family homeless shelters. O'Neil-Pirozzi, T. M. 12(2), 229–242.
Qualitative research and speech-language pathology: A tutorial for the clinical realm. Damico, J. S., & Simmons-Mackie, N. N. 12(2), 131–143.
Training day care staff to facilitate children's language. Girolametto, L., Weitzman, E., & Greenberg, J. 12(3), 299–311.

Language Use in Adults

Age, working memory, figurative language type, and reading ability: Influencing factors in African American adults' comprehension of figurative language. Qualls, C. D., & Harris, J. L. 12(1), 92–102.
A clinical measure for the assessment of problem solving in brain-injured adults. Marshall, R. C., Karow, C. M., Morelli, C. A., Iden, K. K., & Dixon, J. 12(3), 333–348.
Language functioning of residents in family homeless shelters. O'Neil-Pirozzi, T. M. 12(2), 229–242.
Single-word and conversational measures of word-finding proficiency. Tingley, S. J., Kyte, C. S., Johnson, C. J., & Beitchman, J. H. 12(3), 359–368.

Language Differences and Different Languages

Assessment of phonology in preschool African American vernacular English speakers

using an alternate response mode. Laing, S. P. 12(3), 273–281.
Mexican-American and Anglo-American mothers' beliefs and values about child rearing, education, and language impairment. Rodriguez, B. L., & Olswang, L. B. 12(4), 452–462.
Speech-language pathologists' beliefs about language assessment of bilingual/bicultural individuals. Kritikos, E. P. 12(1), 73–91.

Verbal Learning and Memory
Age, working memory, figurative language type, and reading ability: Influencing factors in African American adults' comprehension of figurative language. Qualls, C. D., & Harris, J. L. 12(1), 92–102.

Language Disorders

Aphasia and Other Adult Language Disorders
A clinical measure for the assessment of problem solving in brain-injured adults. Marshall, R. C., Karow, C. M., Morelli, C. A., Iden, K. K., & Dixon, J. 12(3), 333–348.
Discriminative validity of selected measures for differentiating normal from aphasic performance. Ross, K. B., & Wertz, R. T. 12(3), 312–319.
Language functioning of residents in family homeless shelters. O'Neil-Pirozzi, T. M. 12(2), 229–242.
Single-word and conversational measures of word-finding proficiency. Tingley, S. J., Kyte, C. S., Johnson, C. J., & Beitchman, J. H. 12(3), 359–368.

Language Disorders in Children
Automated developmental sentence scoring using computerized profiling software. Channell, R. W. 12(3), 369–375.
Blending quantitative and qualitative methods in language research and intervention. Brinton, B., & Fujiki, M. 12(2), 165–171.
Comparison of two reading feedback strategies in improving the oral and written language performance of children with language-learning disabilities. Crowe, L. K. 12(1), 16–27.
Language functioning of residents in family homeless shelters. O'Neil-Pirozzi, T. M. 12(2), 229–242.
Phonological awareness and phonemic perception in 4-year-old children with delayed expressive phonology skills. Rvachew, S., Ohberg, A., Grawburg, M., & Heyding, J. 12(4), 463–471.
Phonological profiles of 2-year-olds with delayed language development: Predicting clinical outcomes at age 3. Carson, C. P., Klee, T., Carson, D. K., & Hime, L. K. 12(1), 28–39.
Qualitative research and speech-language pathology: A tutorial for the clinical realm. Damico, J. S., & Simmons-Mackie, N. N. 12(2), 131–143.
Quantitative and qualitative documentation of early literacy instruction. Culatta, B., Kovarsky, D., Theadore, G., Franklin, A., & Timler, G. 12(2), 172–188.
The relationship between standardized measures of language and measures of spontaneous speech in children with autism. Condouris, K., Meyer, E., & Tager-Flusberg, H. 12(3), 349–358.
Speech-language pathologists' beliefs about language assessment of bilingual/bicultural individuals. Kritikos, E. P. 12(1), 73–91.
Ten principles of grammar facilitation for children with specific language impairments. Fey, M. E., Long, S. H., & Finestack, L. H. 12(1), 3–15.

Learning Disabilities
Comparison of two reading feedback strategies in improving the oral and written language performance of children with language-learning disabilities. Crowe, L. K. 12(1), 16–27.

Assessment and Intervention

Screening
Age, working memory, figurative language type, and reading ability: Influencing factors in African American adults' comprehension of figurative language. Qualls, C. D., & Harris, J. L. 12(1), 92–102.
Children's story retelling under different modality and task conditions: Implications for standardizing language sampling procedures. Gazella, J., & Stockman, I. J. 12(1), 61–72.

Assessment
Age, working memory, figurative language type, and reading ability: Influencing factors in African American adults' comprehension of figurative language. Qualls, C. D., & Harris, J. L. 12(1), 92–102.
Assessment of phonology in preschool African American vernacular English speakers using an alternate response mode. Laing, S. P. 12(3), 273–281.
Automated developmental sentence scoring using computerized profiling software. Channell, R. W. 12(3), 369–375.
Children's story retelling under different modality and task conditions: Implications for standardizing language sampling procedures. Gazella, J., & Stockman, I. J. 12(1), 61–72.
A clinical measure for the assessment of problem solving in brain-injured adults. Marshall, R. C., Karow, C. M., Morelli, C. A., Iden, K. K., & Dixon, J. 12(3), 333–348.
Connected speech intelligibility of children with cochlear implants and children with normal hearing. Chin, S. B., Tsai, P. L., & Gao, S. 12(4), 440–451.
Discriminative validity of selected measures for differentiating normal from aphasic performance. Ross, K. B., & Wertz, R. T. 12(3), 312–319.
Qualitative research: Implications for description and assessment. Tetnowski, J. A., & Franklin, T. C. 12(2), 155–164.
The relationship between standardized measures of language and measures of spontaneous speech in children with autism. Condouris, K., Meyer, E., & Tager-Flusberg, H. 12(3), 349–358.
Single-word and conversational measures of word-finding proficiency. Tingley, S. J., Kyte, C. S., Johnson, C. J., & Beitchman, J. H. 12(3), 359–368.
Speech-language pathologists' beliefs about language assessment of bilingual/bicultural individuals. Kritikos, E. P. 12(1), 73–91.

Intervention
Comparison of two reading feedback strategies in improving the oral and written language performance of children with language-learning disabilities. Crowe, L. K. 12(1), 16–27.
Emergent literacy intervention for vulnerable preschoolers: Relative effects of two approaches. Justice, L. M., Chow, S.-M., Capellini, C., Flanigan, K., & Colton, S. 12(3), 320–332.
The influence of information and role-playing experiences on children's attitudes toward peers who use AAC. Beck, A. R., & Fritz-Verticchio, H. 12(1), 51–60.
Quantitative and qualitative documentation of early literacy instruction. Culatta, B., Kovarsky, D., Theadore, G., Franklin, A., & Timler, G. 12(2), 172–188.
Ten principles of grammar facilitation for children with specific language impairments. Fey, M. E., Long, S. H., & Finestack, L. H. 12(1), 3–15.
Training day care staff to facilitate children's language. Girolametto, L., Weitzman, E., & Greenberg, J. 12(3), 299–311.

Literacy
Emergent literacy intervention for vulnerable preschoolers: Relative effects of two approaches. Justice, L. M., Chow, S.-M., Capellini, C., Flanigan, K., & Colton, S. 12(3), 320–332.

Multicultural Issues
Mexican-American and Anglo-American mothers' beliefs and values about child rearing, education, and language impairment. Rodriguez, B. L., & Olswang, L. B. 12(4), 452–462

Speech-Language Pathologists' Beliefs
Speech-language pathologists' beliefs about language assessment of bilingual/bicultural individuals. Kritikos, E. P. 12(1), 73–91.

Speech

Nature of Normal Speech

Development of Speech and Voice
Phonological profiles of 2-year-olds with delayed language development: Predicting clinical outcomes at age 3. Carson, C. P., Klee, T., Carson, D. K., & Hime, L. K. 12(1), 28–39.

Perception of Speech
The effect of clinical experience on cue trading for the /r-w/ contrast. Wolfe, V.,

Martin, D., Borton, T., & Youngblood, H. C. 12(2), 221–228.
Effects of presentation mode and repeated familiarization on intelligibility of dysarthric speech. Hustad, K. C., & Cahill, M. A. 12(2), 198–208.
The importance of sound identification training in phonological intervention. Wolfe, V., Presley, C., & Mesaris, J. 12(3), 282–288.
Phonological awareness and phonemic perception in 4-year-old children with delayed expressive phonology skills. Rvachew, S., Ohberg, A., Grawburg, M., & Heyding, J. 12(4), 463–471.

Speech and Voice Disorders

Articulation and Resonance Disorders
Diagnostic criteria of developmental apraxia of speech used by clinical speech-language pathologists. Forrest, K. 12(3), 376–380.
The importance of sound identification training in phonological intervention. Wolfe, V., Presley, C., & Mesaris, J. 12(3), 282–288.
Phonological awareness and phonemic perception in 4-year-old children with delayed expressive phonology skills. Rvachew, S., Ohberg, A., Grawburg, M., & Heyding, J. 12(4), 463–471.
Predictors of phonological change following intervention. Tyler, A. A., Lewis, K. E., & Welch, C. M. 12(3), 289–298.

Craniofacial and Other Anomalies
Speech evaluation and treatment for patients with cleft palate. Kuehn, D. P., & Henne, L. J. 12(1), 103–109.

Physiologically Based Speech Disorders
Diagnostic criteria of developmental apraxia of speech used by clinical speech-language pathologists. Forrest, K. 12(3), 376–380.
Neuromuscular treatments for speech and swallowing: A tutorial. Clark, H. M. 12(4), 400–415.

Stuttering and Other Fluency Disturbances
The relationship of self-efficacy and depression to stuttering. Bray, M. A., Kehle, T. J., Lawless, K. A., & Theodore, L. A. 12(4), 425–431.
A thematic analysis of late recovery from stuttering. Anderson, T. K., & Felsenfeld, S. 12(2), 243–253.

Voice and Other Laryngeal Disorders
Effects of intensive voice treatment (the Lee Silverman Voice Treatment [LSVT]) on ataxic dysarthria: A case study. Sapir, S., Spielman, J., Ramig, L. O., Hinds, S. L., Countryman, S., Fox, C., & Story, B. 12(4), 387–399.
Effects of voicing and syntactic complexity on sign expression in adductor spasmodic dysphonia. Erickson, M. L. 12(4), 416–424.
The ICF: A proposed framework for comprehensive rehabilitation of individuals who use alaryngeal speech. Eadie, T. L. 12(2), 189–197.
Telehealth: Voice therapy using telecommunications technology. Mashima, P. A., Birkmire-Peters, D. P., Syms, M. J., Holtel, M. R., Burgess, L. P. A., & Peters, L. J. 12(4), 432–439.

Dysphagia
Neuromuscular treatments for speech and swallowing: A tutorial. Clark, H. M. 12(4), 400–415.
Relationships among subjective and objective measures of tongue strength and oral phase swallowing impairments. Clark, H. M., Henson, P. A., Barber, W. D., Stierwalt, J. A. G., & Sherrill, M. 12(1), 40–50.

Assessment and Intervention

Screening
Speech evaluation and treatment for patients with cleft palate. Kuehn, D. P., & Henne, L. J. 12(1), 103–109.

Assessment
Diagnostic criteria of developmental apraxia of speech used by clinical speech-language pathologists. Forrest, K. 12(3), 376–380.
Effects of presentation mode and repeated familiarization on intelligibility of dysarthric speech. Hustad, K. C., & Cahill, M. A. 12(2), 198–208.
Qualitative research: Implications for description and assessment. Tetnowski, J. A., & Franklin, T. C. 12(2), 155–164.
The relationship of self-efficacy and depression to stuttering. Bray, M. A., Kehle, T. J., Lawless, K. A., & Theodore, L. A. 12(4), 425–431.
Relationships among subjective and objective measures of tongue strength and oral phase swallowing impairments. Clark, H. M., Henson, P. A., Barber, W. D., Stierwalt, J. A. G., & Sherrill, M. 12(1), 40–50.
Speech evaluation and treatment for patients with cleft palate. Kuehn, D. P., & Henne, L. J. 12(1), 103–109.

Intervention
Effects of intensive voice treatment (the Lee Silverman Voice Treatment [LSVT]) on ataxic dysarthria: A case study. Sapir, S., Spielman, J., Ramig, L. O., Hinds, S. L., Countryman, S., Fox, C., & Story, B. 12(4), 387–399.
The importance of sound identification training in phonological intervention. Wolfe, V., Presley, C., & Mesaris, J. 12(3), 282–288.
Neuromuscular treatments for speech and swallowing: A tutorial. Clark, H. M. 12(4), 400–415.
Predictors of phonological change following intervention. Tyler, A. A., Lewis, K. E., & Welch, C. M. 12(3), 289–298.
Speech evaluation and treatment for patients with cleft palate. Kuehn, D. P., & Henne, L. J. 12(1), 103–109.

Instrumentation for Diagnosis, Treatment, and Research
Relationships among subjective and objective measures of tongue strength and oral phase swallowing impairments. Clark, H. M., Henson, P. A., Barber, W. D., Stierwalt, J. A. G., & Sherrill, M. 12(1), 40–50.
Speech evaluation and treatment for patients with cleft palate. Kuehn, D. P., & Henne, L. J. 12(1), 103–109.

Nonspeech Communication Systems
The fruitfulness of a nomothetic approach to investigating AAC: Comparing two speech encoding schemes across cerebral palsied and nondisabled children. Hochstein, D. D., McDaniel, M. A., Nettleton, S., & Neufeld, K. H. 12(1), 110–120.

Cerebral Palsy
Effects of presentation mode and repeated familiarization on intelligibility of dysarthric speech. Hustad, K. C., & Cahill, M. A. 12(2), 198–208.

Laryngectomy
The ICF: A proposed framework for comprehensive rehabilitation of individuals who use alaryngeal speech. Eadie, T. L. 12(2), 189–197.

Qualitative Methods
Blending quantitative and qualitative methods in language research and intervention. Brinton, B., & Fujiki, M. 12(2), 165–171.

Professional and General Scientific Issues

Professional Affairs

Professional Standards and Ethics
Diagnostic criteria of developmental apraxia of speech used by clinical speech-language pathologists. Forrest, K. 12(3), 376–380.
The ICF: A proposed framework for comprehensive rehabilitation of individuals who use alaryngeal speech. Eadie, T. L. 12(2), 189–197.

Service Provision Models and Problems
Breadth and depth of diversity in Minnesota: Challenges to clinical competency. Kohnert, K., Kennedy, M. R. T., Glaze, L., Kan, P. F., & Carney, E. 12(3), 259–272.
Telehealth: Voice therapy using telecommunications technology. Mashima, P. A., Birkmire-Peters, D. P., Syms, M. J., Holtel, M. R., Burgess, L. P. A., & Peters, L. J. 12(4), 432–439.
Training day care staff to facilitate children's language. Girolametto, L., Weitzman, E., & Greenberg, J. 12(3), 299–311.

Incidence and Prevalence of Communication Disorders
Breadth and depth of diversity in Minnesota: Challenges to clinical competency. Kohnert, K., Kennedy, M. R. T., Glaze, L., Kan, P. F., & Carney, E. 12(3), 259–272.

Research Issues and Methodology
Blending quantitative and qualitative methods in language research and intervention.

Brinton, B., & Fujiki, M. 12(2), 165–171.
Challenges and strategies for conducting survey and focus group research with culturally diverse groups. Huer, M. B., & Saenz, T. I. 12(2), 209–220.
Comments on the special forum on phonology. Podwall, A., & Podwall, M. 12(1), 121–122.
Contributions of qualitative research to the knowledge base of normal communication. Simmons-Mackie, N. N., & Damico, J. S. 12(2), 144–154.
Qualitative research and speech-language pathology: A tutorial for the clinical realm. Damico, J. S., & Simmons-Mackie, N. N. 12(2), 131–143.
Qualitative research: Implications for description and assessment. Tetnowski, J. A., & Franklin, T. C. 12(2), 155–164.

Interdisciplinary Concerns

Challenges and strategies for conducting survey and focus group research with culturally diverse groups. Huer, M. B., & Saenz, T. I. 12(2), 209–220.

Professional Training

Education and Continuing Education

Breadth and depth of diversity in Minnesota: Challenges to clinical competency. Kohnert, K., Kennedy, M. R. T., Glaze, L., Kan, P. F., & Carney, E. 12(3), 259–272.
The effect of clinical experience on cue trading for the /r-w/ contrast. Wolfe, V., Martin, D., Borton, T., & Youngblood, H. C. 12(2), 221–228.
Speech evaluation and treatment for patients with cleft palate. Kuehn, D. P., & Henne, L. J. 12(1), 103–109.

Clinical Supervision and Interaction

Breadth and depth of diversity in Minnesota: Challenges to clinical competency. Kohnert, K., Kennedy, M. R. T., Glaze, L., Kan, P. F., & Carney, E. 12(3), 259–272.

Cultural/Linguistic Diversity

Challenges and strategies for conducting survey and focus group research with culturally diverse groups. Huer, M. B., & Saenz, T. I. 12(2), 209–220.

Scope of Practice

The ICF: A proposed framework for comprehensive rehabilitation of individuals who use alaryngeal speech. Eadie, T. L. 12(2), 189–197.
